

RENAME OUR NETWORK AND WIN £50 OF VOUCHERS!!

West Yorkshire have recently become part of our network and our old name is no longer suitable. Our new network (see left in dark red) now includes:

- **Greater Manchester**
- **Lancashire**
- **Cumbria**
- **West Yorkshire**

The new name will prefix the words **Medicines for Children Research Network** and must be short and could reference our new geography, the new partnership or something entirely different. Anything including the words "north" may be difficult to use as there are other northern MCRNs it may offend!

To enter our competition, please write your idea overleaf and leave with our team or send your ideas to sarah.rickard@cmft.nhs.uk by 4pm 9th July

NHS

**National Institute for
Health Research**
